Carrer Objective

Data Analyst Fresher skilled in converting raw datasets into actionable insights. Proficient in Python, SQL, Excel, and Power BI with hands-on experience building predictive sentiment frameworks and interactive performance dashboards. Seeking to leverage analytical methodologies and core statistical foundations to support data-driven decision-making.

Education

Bachelor of Technology (B.Tech) DRK College Engineering And Technology, Hyderabad, India CGPA: 7.0/10	2027
Telangana State Board of Intermediate Education(TSBIE) Narayan Junior College GPA: 9.01/10	2023
Secondary School Certificate (SSC) Sarvodaya E Techno School GPA: 7.3/10	2021

Skills

Programming Languages	Python, SQL
Data Analysis& Libraries	Excel,Pandas, NumPy
Data Visualization	Power BI, Matplotlib
Databases	MySQL, PostgreSQL
Core Concepts	Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis
Tools	Git, GitHub

Projects

Sentiment Analysis on Amazon Reviews	<i>Python, NLP, Machine Learning</i>
---	--------------------------------------

- Developed a sentiment analysis system to classify Amazon customer reviews into positive, negative, and neutral categories.
- Performed text preprocessing, including cleaning, tokenization, and removal of unwanted punctuation or characters.
- Applied TF-IDF vectorization for feature extraction and engineered a Support Vector Machine (SVM) classifier.
- Implemented model evaluation frameworks and structured a real-time prediction function to analyze incoming custom reviews.

Employee Performance Analysis Dashboard	<i>SQL, Excel, Power BI</i>
--	-----------------------------

- Analyzed operational corporate datasets to identify department-level trends in performance ratings, compensation structure, and worker job satisfaction.
- Cleaned, filtered, and transformed complex raw HR datasets using Microsoft Excel and Power Query to prepare analytics-ready structures.
- Developed custom SQL queries employing window functions, groupings, and multi-field aggregations to establish baseline workforce performance metrics.
- Designed and deployed an interactive Power BI dashboard featuring dynamic KPIs, matrix cross-charts, and timeline slicers.

Extracurricular Activities

- Participated in technical events and college activities, demonstrating adaptability and collaboration in diverse team environments.
- Participated in technical discussions and knowledge-sharing sessions to improve communication and presentation skills.
- Actively explored data analytics concepts, like SQL, data cleaning, and data visualization through self-directed learning.
- Demonstrated time management and accountability while balancing academic responsibilities with technical skill development.
